

Journal of

Paradigm Shifts

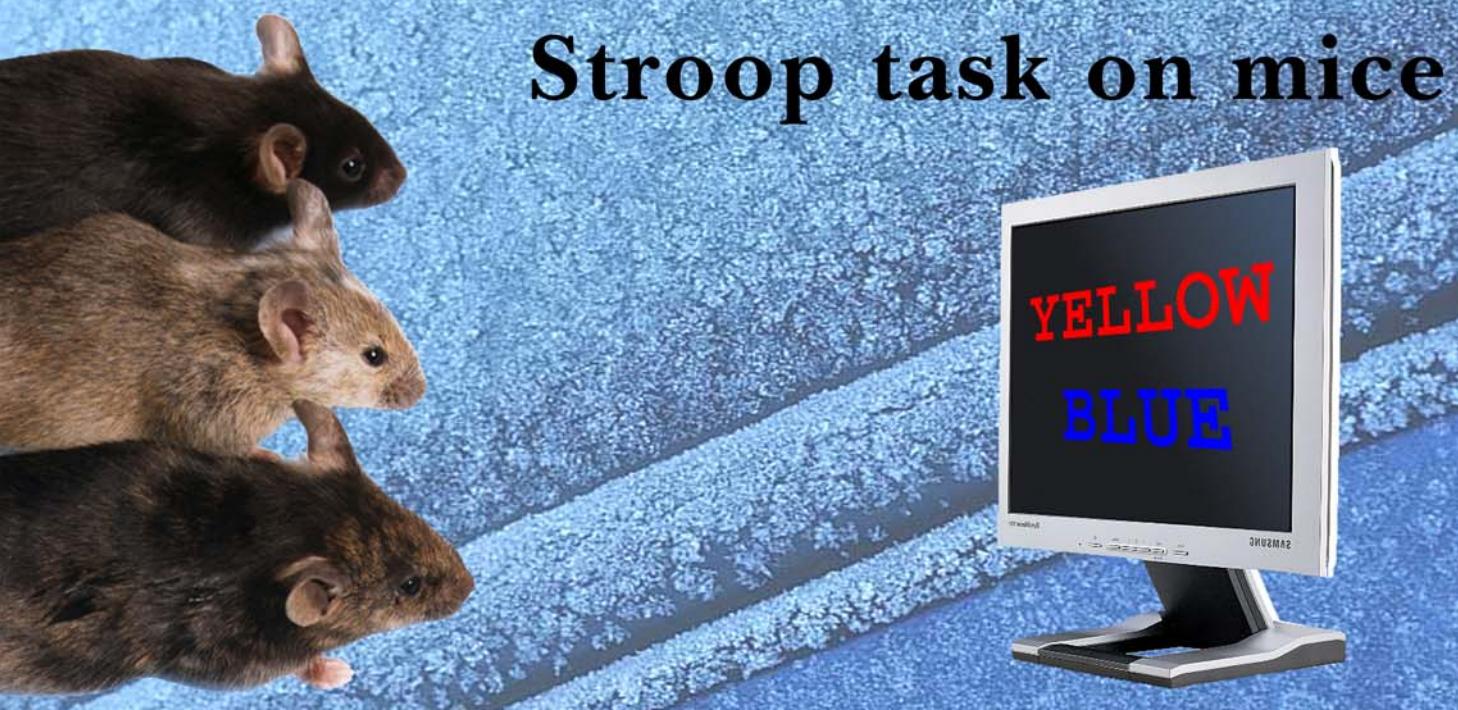

Vol. 1, No. 1 January 2005

Editor-in-Chief Thomas S. Kuhn

Studies on consciousness:
Introspection might resolve
a long-standing issue

Systems neuroscience:

The role of the anterior cingulate as homunculus

Neuroeconomy: neural correlates of Big Mac and Whopper

TMS revisited: is it better than a blow on the head?

Philosophy of mind and action observation: does the other exist?
